What is a reverse auction?

Multiphase procurement process

Phase1: Qualification of suppliers through your normal solicitation process (RFQ, ITB, RFP)

Phase2: One line dynamic pricing event. Qualified suppliers have the ability to submit their price offer and in real time see where they rank and adjust their pricing downward to achieve a better position.

Process results in Cost savings (price increase mitigation), transparency and efficiencies.

EasiBuy has managed in excess of \$4.2B through this process and have saved agency on average 20% find out how we can help your agency today. Set up a demo now.
